Summary

As Developer with experience in the field. I am eager to join your growing team and develop my skills in coding. With my knowledge and determination, I am confident that I can make a valuable contribution to your team. My transferable skills as a licensed civil engineer, including problem-solving, technical expertise, project management, attention to detail, and communication skills, will enable me to thrive in the fast-paced world of web development. I am passionate about coding and eager to pursue my passion in a professional setting. I am excited about the opportunity to work with your team to create exceptional websites and programs.

Experience

Junior Software Engineer

Center for Applied Microelectronics and Programming, April 2022 – Present

Languages and Tools:

- Javascript – NodeJS, NestJS, NextJS, ReactJS
- C# - Webapi, ASP.Net, Telerik (Web UI)
- ABAP – SAP Hana, Reports, Interface, Conversion, Enhancements, and Forms
- AWS – EC2 and s3 bucket
- Version Control – git
- Database – Postgres, MySQL, MongoDB

Job Responsibilities:

- Developed and deployed full-stack applications using JavaScript frameworks and libraries, including NodeJS, NestJS, NextJS, and ReactJS.
- Developed and optimized backend using Postgres, MySQL, and MongoDB.
- Conducted testing and debugging to identify and resolve issues for better performance.
- Created and maintained RESTful APIs and web services with C# and using Telerik Web UI for frontend.
- Use of git version control for collaborative development and to work simultaneously.
- Use of SAP ABAP for SAP HANA, focusing on reports, interfaces, conversions, enhancements, and forms to optimize business processes.
- Continuously improved coding skills and enhancing overall quality and maintainability.
- Collaborated with the development team on software architecture and design, contributing to technical discussions and decision-making processes.
- Participated in sprint planning, stand-ups, and retrospective meetings to ensure alignment with project goals and timelines.
- Authored and maintained documentation, including technical reports and user guides.

Student

Zuitt - Coding Bootcamp, Jan 2022 - Mar 2022

Capstone Project 1 - Static Website

- Created a static portfolio using HTML, CSS, Bootstrap and Javascript

Capstone 2 - Asset Management System

- Created an asset management system with user registration and authentication, admin authorization, and asset management for admins and users

Capstone 3 - E-commerce Application

- Created an e-commerce application using MERN Stack (MongoDb, Express, ReactJS, NodeJS)
- Developed frontend application using ReactJs, and backend application using Express and NodeJS with MongoDB as database
- Hosted both applications on Heroku, Vercel, and MongoDB Atlas

Project Engineer - Thaumaturgy Trade Philippines

January 2021 to December 2021

Site Engineer - Xiangxin Construction Corp

January 2020 to January 2021

Education

Bachelor of Science in Civil Engineering – 2014-2019

Polytechnic University of the Philippines

Licenses and Certification

- Licensed Civil Engineer
- Amazon Web Services – EC2 and S3 (Zuitt – Coding Bootcamp)
- Back End Course, Front End Course, Fullstack Course (Zuitt – Coding Bootcamp)
